GOATTHROAT PUMPS AND ACCESSORIES FOR LANDSCAPERS

Award winning **GoatThroat™ Pumps** fit any container from 5 to 55 gallons and can be easily transferred from one container to another.

These pumps quickly pay for themselves by preventing potentially hazardous spills and assuring precise flow rates. Unlike costly electric pumps, GoatThroat™ Pumps are simple, safe and, with a 10 year life expectancy, inexpensive to own. Flow can be continuous, or adjusted to dispense liquids at rates up to 4.5 gallons per minute depending on viscosity.

Durable: Constructed of 100% non-reactive polypropylene, they are engineered to handle any liquid.

Safe: Drip-proof to help prevent potentially hazardous spills. Internal pressure relief at 7psi.

Versatile: Safe for use with other 750 liquids, fits all common container sizes.

Economical: One touch flow control dispenses liquid at a controlled rate to prevent waste, conserve your inventory.

Proven: Thousands now in use worldwide in all industries where compliance is important.
